Herramientas de terminal

Lista de herramientas de termina

Herramientas SSH

Purple

Herramienta de gestión de conexiones ssh. Maneja túneles, dockers internos, permite ejecutar comandos en varios servers a la vez. Todo lo gestiona desde .ssh/config.

Acceder <https://getpurple.sh/>

LazyJournal

Permite ver los logs del journalctl en una cómoda TUI. No solo muestra los locales sino además permite acceder a los de servidores remotos.

```
lazyjournal

lazyjournal ssh <remoto>

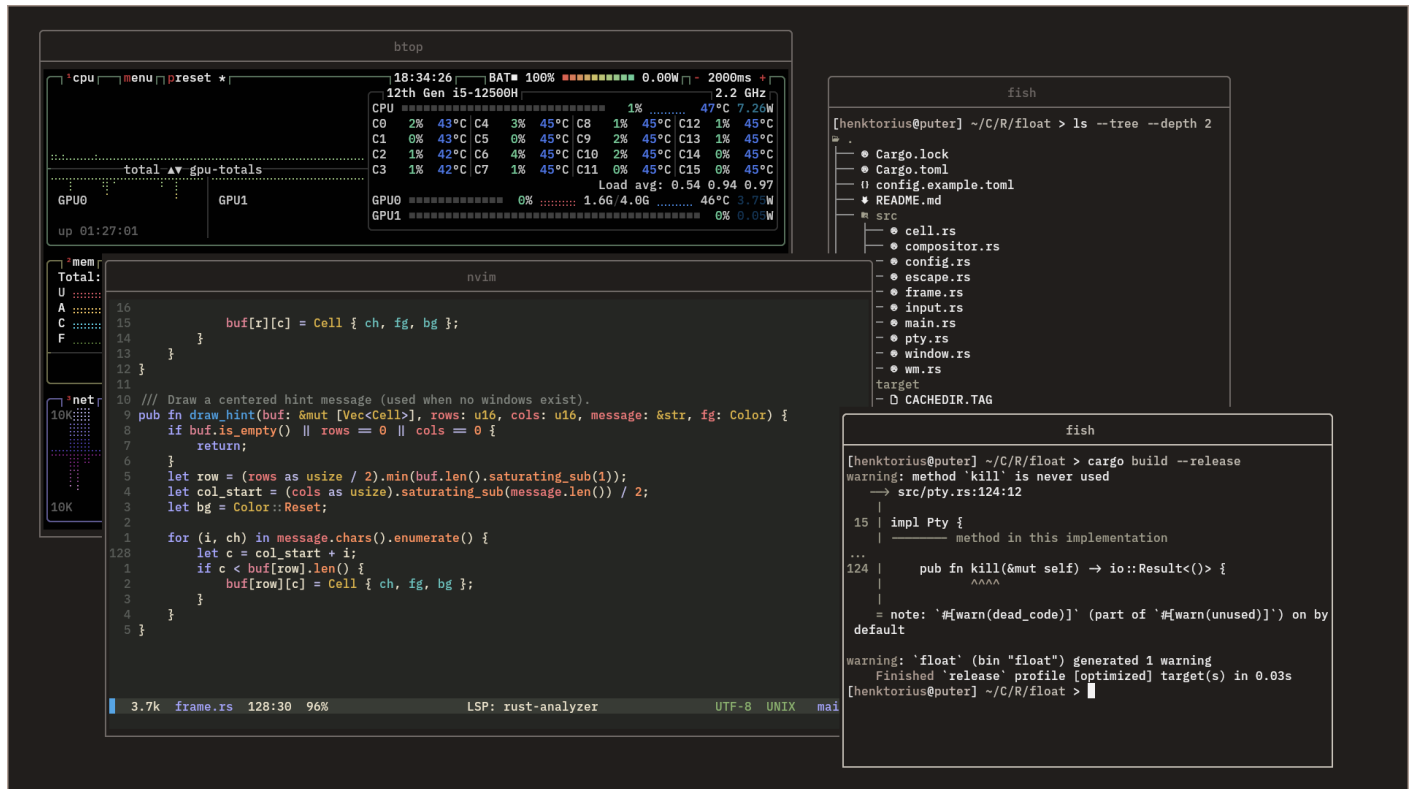

# Filtering using regular expressions
cat /var/log/syslog | lj -r "error|fatal|fail|crash"
```

Float-mux terminales flotantes

Float-mux

Terminales flotantes con procesos individuales.

```
cargo install float-mux  
float-mux
```

<https://github.com/henktorius/float>
